# PROTEIN FOLDING, AGGREGATION, AND DISEASES

Thursday, March 14, 2019  
10.00 am (s.t.) – 11.30 am

Goethe-Universität Frankfurt  
Otto-Stern-Zentrum, Hörsaal H3, Campus Riedberg  
Ruth-Moufang-Str. 2, 60438 Frankfurt am Main

## PROGRAM

10.00 am **Arthur Horwich**  
Yale School of Medicine, New Haven, USA  
»Chaperonin-mediated protein folding«

10.30 am **Dorothee Dormann**  
Ludwig-Maximilians-University Munich, BioMedical Center  
»Molecular mechanisms of neurodegeneration – from nuclear transport defects to protein aggregation«

11.00 am **Ulrich Hartl**  
Max Planck Institute of Biochemistry, Martinsried  
»Molecular chaperones in protein folding and proteostasis«

ORGANIZATION Prof. Dr. Robert Tampé, Goethe-Universität Frankfurt
